Customer Journey Map

The stage-by-stage experience of a student using EduGenie - from discovering a learning need to mastering the topic.

Phase of Journey	Stage 1 - Discover & Access	Stage 2 - Ask & Generate	Stage 3 - Learn & Practice
Actions What does the customer do?	- Gets stuck on a topic or has an upcoming test - Opens EduGenie in the browser (http://127.0.0.1:8000)	- Selects a task (Q&A, Explain, Quiz, Summarize, Learning Path) - Types a question / topic or pastes a passage and submits	- Reads the answer, attempts the quiz, copies the summary - Follows the learning path and comes back for the next topic
Touchpoint What part of the service do they interact with?	- Home page header & connection status badge - Task dropdown and example chips	- Input text area, level / number-of-questions options - Submit button, loading indicator	- Result card (formatted Markdown) - Interactive quiz options & score, Copy button
Customer Thought What is the customer thinking?	"I need help quickly and simply." "Will this be easy to use?"	"Which option should I choose?" "I hope the answer is accurate and not too complex."	"Now I understand it!" "Let me test myself / plan what to study next."
Customer Feeling What is the customer feeling?	Curious but anxious about the exam	Hopeful, slightly impatient while waiting for the AI	Confident, motivated and in control of learning
Process Ownership Who is in the lead on this?	Arumparithi B (frontend / UX)	Arumparithi B (FastAPI backend, prompt engineering, Gemini integration)	Arumparithi B (quiz logic, result rendering, testing & feedback)
Opportunities How can we improve this stage?	- Shareable public link / mobile app - Onboarding tips on first visit	- Voice input and multilingual prompts - Image / PDF upload for doubts	- Progress dashboard, badges and streaks - Save history of quizzes and learning paths
